DM-626

DEPUTIES' MEETING

Friday, 18 April 1958

PRESENT: Mr. Dulles, General Cabell, Messrs. Amory, Helms, Lloyd, Kirkpatrick, Bissell, Sheldon, Karamessines, Earman

Mr. Dulles:

a) Noted we had received a report from the Acting Director, OO, that Ambassador Puga of Chile had complained about an item in the daily FBIS of 16 April. The Director said while he realized that the information was the result of our monitoring a Chilean broadcast, consideration should be given to deleting similar items in the future or at least withholding them until a decision is made as to whether they should be included. ACTION: DD/I.

b) Referred to the article on CIA by Warren Unna published in HARPERS April 1958 and stated that in the future when we learn about an article to be published on the Agency, this fact be raised at a Deputies' Meeting. ACTION: IG.

Mr. Helms:

50X1

Mr. Lloyd:

Noted he had looked into the question of providing fall-out shelter in our new building and it had been determined that a preliminary start on this program would increase the cost of construction about \$30,000 and cause a two weeks' delay. He pointed out this would only make space for about employees and later costs to provide for filters, food, etc., would run in the neighborhood of \$250,000 in addition to probably losing our garage space. After some discussion it was the consensus that in any event some attempt should be made to provide for such shelter and the Director and Mr. Lloyd undertook to discuss this matter with the Director of ODM.
